LORD MAYOR'S DAY

ITS SIGNIFICANCE HAS
GRADUALLY CHANGED.

Was Originally a Symbol of the Freedom of Industry From Military Oppression—Later Characteristics Those of a Holiday—Now the Military Spirit Predominates—Biographical Sketch of the New Lord Mayor.

London, Nov. 9.—That Great Britain's recent diplomatic encounter with Russia has stirred anew the martial spirit of the nation was evidenced today by the great crowds that lined the route of the lord mayor's procession and cheered to the echo the grenadiers and guards, the clattering cavalry and the smart appearing jackies and marines as they marched along to the strains of the national anthem.

In its origin the mayor's procession was intended as an assertion of the importance of trade and commerce, long previously ground down by kings and nobles. The city companies came into existence, formed a powerful municipality and, making Guild hall their headquarters, took care, as a warning to all whom it might concern to have the mayor installed with the utmost pomp. In the course of time the ceremony lost this particular significance. It then became a tawdry pageant symbolizing the growth and power of the empire and the occupations and sports of the British nation. The chief features of the procession were magnificent floats emblematic of various periods of England's history. Circus features were introduced and men and women riders, gayly dressed, together with elephants, camels and other animals made up the pageant. After the South African war there came another change in the character of the pageant and for the last two or three years it has gradually been changed into a military demonstration.

When the procession reached the law courts the new lord mayor, Alderman John Pound, in his full civic robes, preceded by the recorder, and attended by the retiring lord mayor, Sir Thomas Ritchie, the sheriffs, the mace bearer, the sword bearer and other civic functionaries, proceeded to the court of the lord chief justice, where the usual solemn courtesies were exchanged. From this court, after the retiring lord mayor had been formally presented to the judges, the procession went to the court of appeals and was received by the master of the rolls and the appeal judges. The ceremonies here were merely formal and at their con-

clusion the dignitaries returned to their coaches and resumed the march to the city.

More than ordinary interest is manifested in the annual lord mayor's banquet at Guild hall tonight, owing to the expectation that the premier and other members of the government, in accordance with custom, may make some important statements in reference to issues of the day. Ambassador Choate will be present and in all probability will deliver an address.

Alderman John Pound, the new lord mayor who assumed office today, is a well known London business man. He was born in the city, was educated at the "Bluecoat" school there, and after leaving school entered his father's business in London, of which he is now the head. In 1863, when he was 40 years old, Mr. Pound entered the Corporation as a councillor. He became an alderman in 1892, and in 1895-6 he served as senior sheriff. He is extremely wealthy.

IMMIGRATION FRAUDS.

Charitable Institutions in America
Filled Up With Alien Patients.

San Francisco, Nov. 8.—United States Immigrant Inspectors A. J. Ridgeway, Charles W. Snyder, Antonio de la Torre, Jr., Thomas C. Crawford and Percy Montgomery have forwarded to Frank P. Sargent, commissioner of immigration, their report on certain frauds on taxpayers being perpetrated by aliens.

The administration has discovered that in nearly every state in the Union a large percentage of the inmates of asylums for orphans and insane are aliens sent to this country specially for the purpose of being placed in those institutions, where better care and treatment are given than can be obtained in similar institutions in Europe.

The inspectors named were appointed some months ago to investigate the eleemosynary institutions in this district as to the percentage of newly arrived aliens cared for.

The facts learned by them and embodied in their report have been kept secret, and will be made public only when Mr. Sargent shall have presented his report and findings to congress. He intends urging upon congress the necessity of enacting a law to abolish the abuse.

The local committee has been assisted materially in its work by Gen. Cecil Clay, chief clerk of the department of justice, who visited this district a month ago for the purpose of investigating this matter, as well as fraudulent naturalization schemes.

Hickey, vicar general of the Rochester diocese, and Rev. E. J. Hanna, a professor at St. Bernard's seminary. THEIR VIEWS ON VINOL WORTH LEARNING.

This is the Preparation That is Being Much Talked About.

A reporter asked Mr. Brock, of the Brock & McComas Co., the same question that hundreds have asked him in the last few days, "Just tell me precisely, please, why Vinol is better than cod liver oil?"

Mr. Brock replied in his genial way, "You have given me a rather difficult task. I can explain to you in a few minutes the advantages of Vinol, but to do it in half a dozen words would hardly be possible. Perhaps I can illustrate its value, however, in a brief manner. Suppose you had never seen a hen's egg. A man who knew of them should tell you to eat three every day. I do not say that you would, mind you, but I am inclined to believe at the start you would make an heroic effort to get away with the whole thing, shell and all. The meat of the egg would be what you needed, the shell rather superfluous. In fact, as a matter of nourishment not quite the thing for your stomach."

"There you are with cod liver oil. In it you have a medicine, or rather in the liver of a live cod there is a medicine known to be valuable for certain forms of wasting disease, a great reconstructor. Doctors have administered it for years. They were like the man who had never seen an egg before. They gave it to their patients just as they found it, shell and all. Yes, that is exactly it. The grease was useless and as bad for the stomach, almost, as would have been the shell of an egg. The kernel, or the meat of the remedy, the vital principles that they were after, were contained in it. Science has stepped in and done exactly what the man with the egg might have done—found a way to separate the healthful interior from the worthless husk."

"Now we have the active medical principles of the cod's liver. We have thrown away the useless encumbrances that formerly encloaked it, namely, the objectionable fat. We have taken this extract, placed it in a delicious table wine, and there you are. Patients who have needed cod liver oil and could not take it, have no trouble in taking Vinol. Why, you would enjoy drinking it yourself, so pleasant it is, if I did not tell you it was anything but a mild table wine. If you needed it, however, for a medicine, you would soon find it to be something different. The medicinal properties of the cod's liver heal damage done by diseases that are of a wasting nature, and the same principles give strength to the weakened digestion and enable the poor sufferer's worn-out stomach to digest and obtain nutriment from every day food. These same principles are also active disease germ annihilators."

"Yes, I am glad to have you come any time that you care to learn anything more about Vinol. It has already proved itself to be a winner."

IS FIREMEN'S DAY AT SULLIVAN & BOND'S

RECOGNIZING THE VALUABLE SERVICE RENDERED THE CITY BY OUR PATRIOTIC FIREMEN, WHO ARE EVER READY TO RESPOND TO THE CALL FOR THEIR SERVICE WHO BRAVE THE DANGERS OF BEING INJURED, IF NOT KILLED, AND WHO FACE SURGING AND SWEEPING FLAMES AND STAND IN ITS PATH OF DESTROYING ELEMENT; SOMETIMES DRIVEN TO THE VERY SKIN AND SUFFERING THEMSELVES TO SICKNESS AND SEVERE COLDS, WE HAVE DECIDED TO SHOW OUR APPRECIATION BY GIVING

10 Per Cent of Every Dollar We Take
in Saturday, Nov. 12

The money is to go into the Firemen's Relief Fund, which has been created to aid disabled and sick firemen, and the members of the families. There is no cause in the city more deserving of help than this fund.

Pendleton certainly has reason to feel proud of its noble firemen. They are a gentlemanly lot of fellows, who have volunteered their services to fight the destroying element, and to protect the life and property of citizens. At all hours, day or night, they are ready to leave comfortable homes or places of occupation in order to serve others.

Every citizen in Pendleton is, and should be interested in the Fire Department, and should aid the Relief Fund. At a meeting of the firemen of the various fire companies the Firemen's Day idea was most heartily approved and represented. At a meeting of the department will have charge of the money on Firemen's Day. In order to handle the large trade which we will surely have Firemen's Day, extra clerks have been secured. We would ask that the citizens call as early in the day as possible, and help us to avoid the rush.
